

Tenure Track Position at the Faculty of Agriculture, Shizuoka University, Japan

The Department of Applied Life Sciences, Faculty of Agriculture of Shizuoka University is inviting applications for a five-year tenure track assistant professor position with financial support for research. Aiming for advancing Food and Nutritional Science in the Department of Applied Life Sciences, the Faculty of Agriculture is seeking a tenure track assistant professor with the foci on the areas of Nutritional Biochemistry.

The tenure track system at Shizuoka University targets to provide promising young researchers with opportunities to promote their scientific carriers and to nurture their talents and skills in the contexts of research, leadership, management, and education. Holders of tenure track positions are expected to undertake scientific research in their respective fields primarily. However, since eventually, they will also undertake teaching responsibilities, the tenure track program requires the holders to guide thesis projects of students. Holders of tenure track positions will be promoted to tenured positions upon successful completion of the tenure track program. Extremely competent individuals may be promoted to tenured positions even earlier.

Shizuoka University hires professors to promote internationalization both in education and research. Also, Shizuoka University is committed to equal employment opportunities regardless of nationality, race, gender, or religion.

1. Job Description

Applicants must have a doctoral degree and have made outstanding research achievements in the field of Nutritional Biochemistry. We seek an inquisitive individual who is able to explore the physiological effects of nutrients and food components at the individual and cellular level using biochemical and physiological methods based on quantitative analytical science. We are looking for individuals who can take charge of Nutritional Biochemistry, etc., and who can actively engage in student education. Furthermore, we seek individuals who can contribute to the community through the operation of the Food Analysis Laboratory established in April 2022.
